On Time Deliveries

SwiftShip
Best Carrier

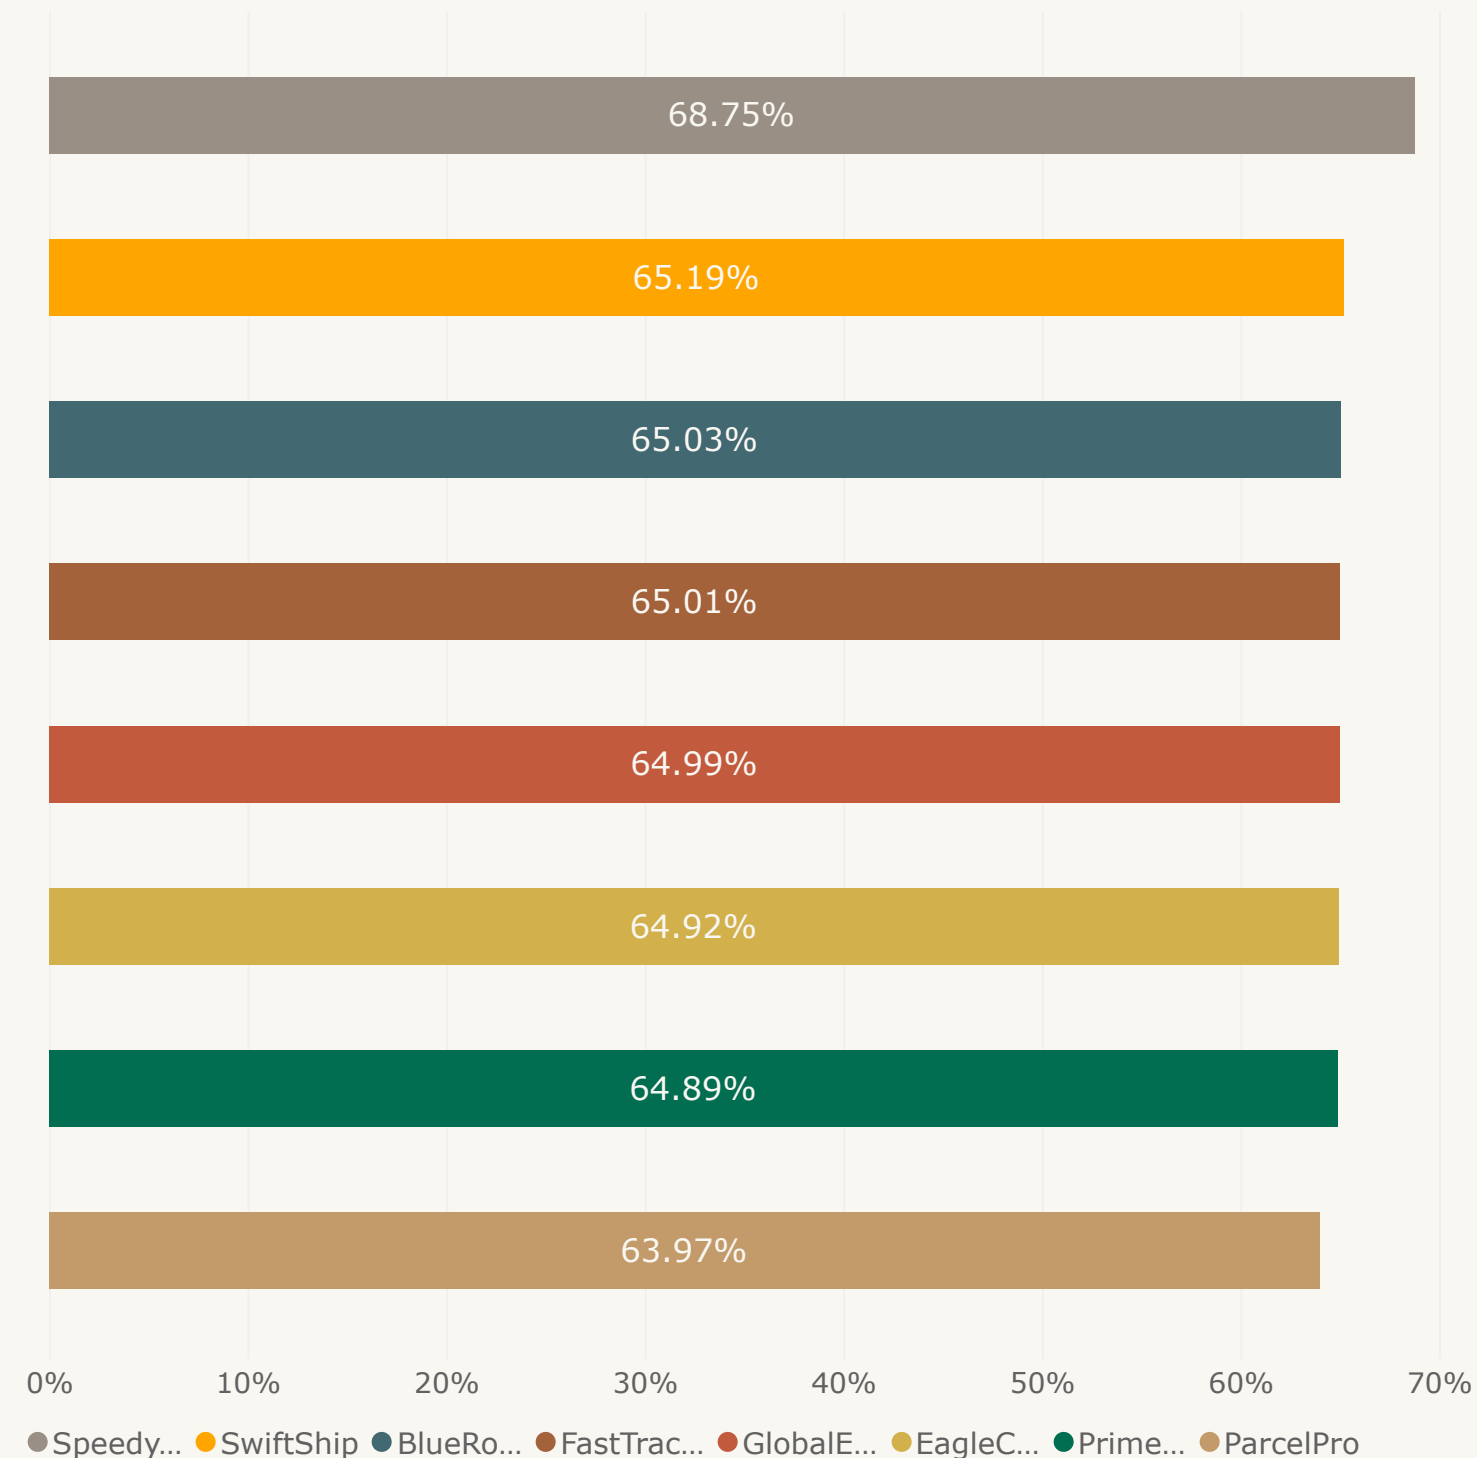

Freight-to-Value

GlobalExpress delayed delivery is not compensated by the cost as the freight to value ratio is similar to the other carriers therefore strengthening our finding that GlobalExpress is the worst carrier out of all.

Freight-to-value rises with distance, consistent with normal shipping economics.

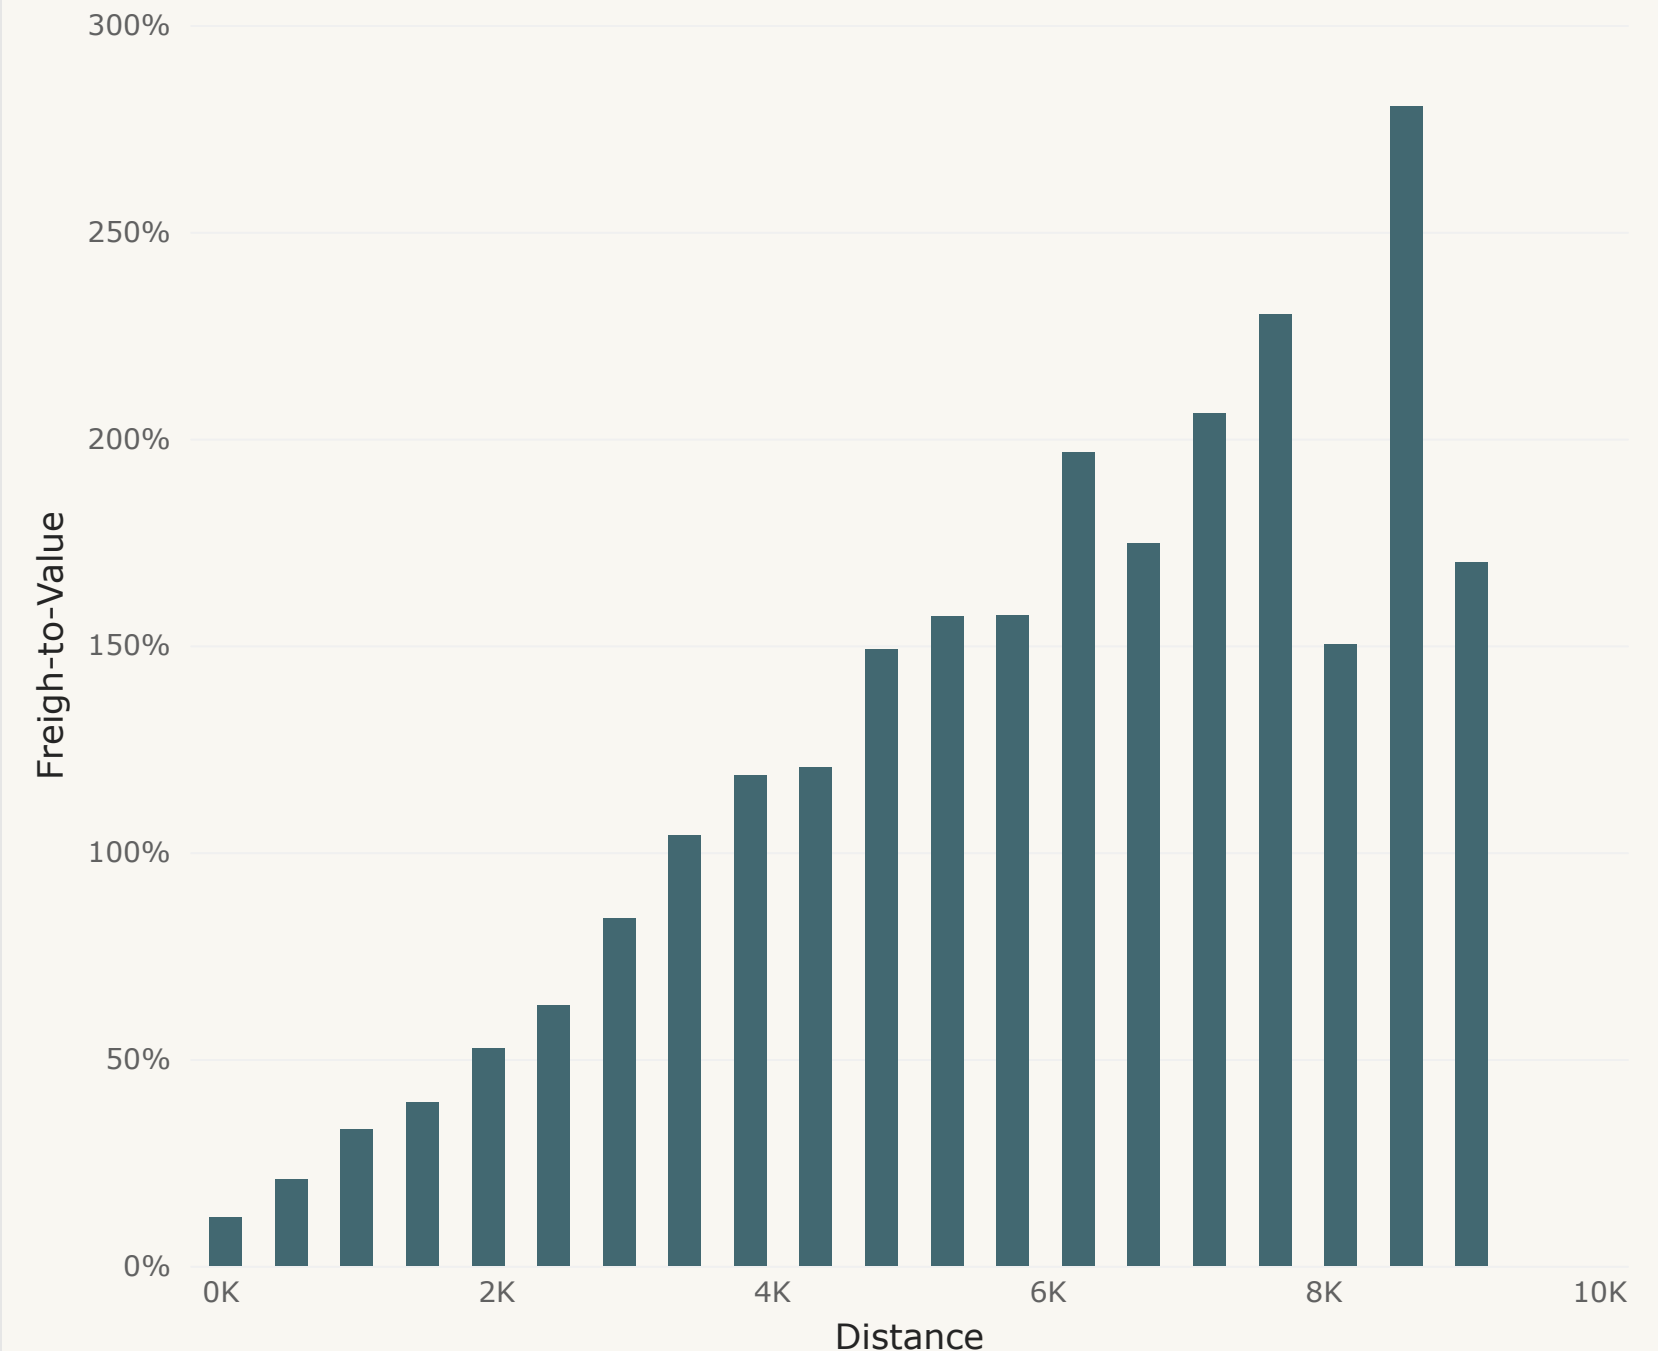

Freight-to-Value by carrier

65.33%
Freight-to-Value

Freight-to-Value ratio is the ratio of shipping cost to the cost of the good being shipped.

Freight-to-Value by distance

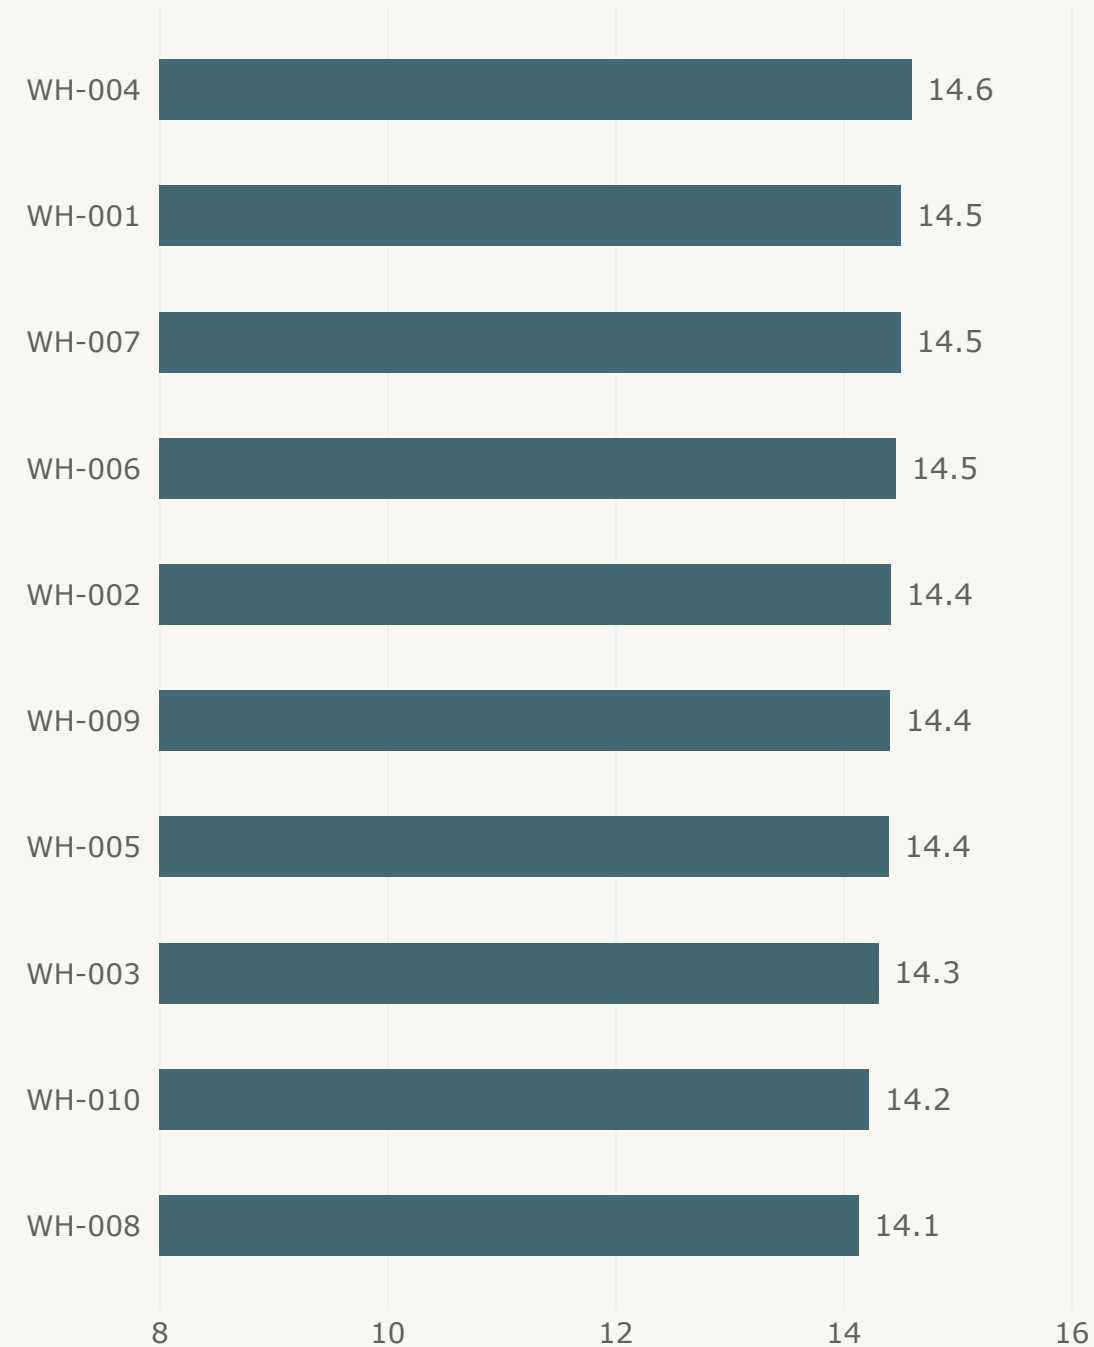

Warehouse Processing Hours

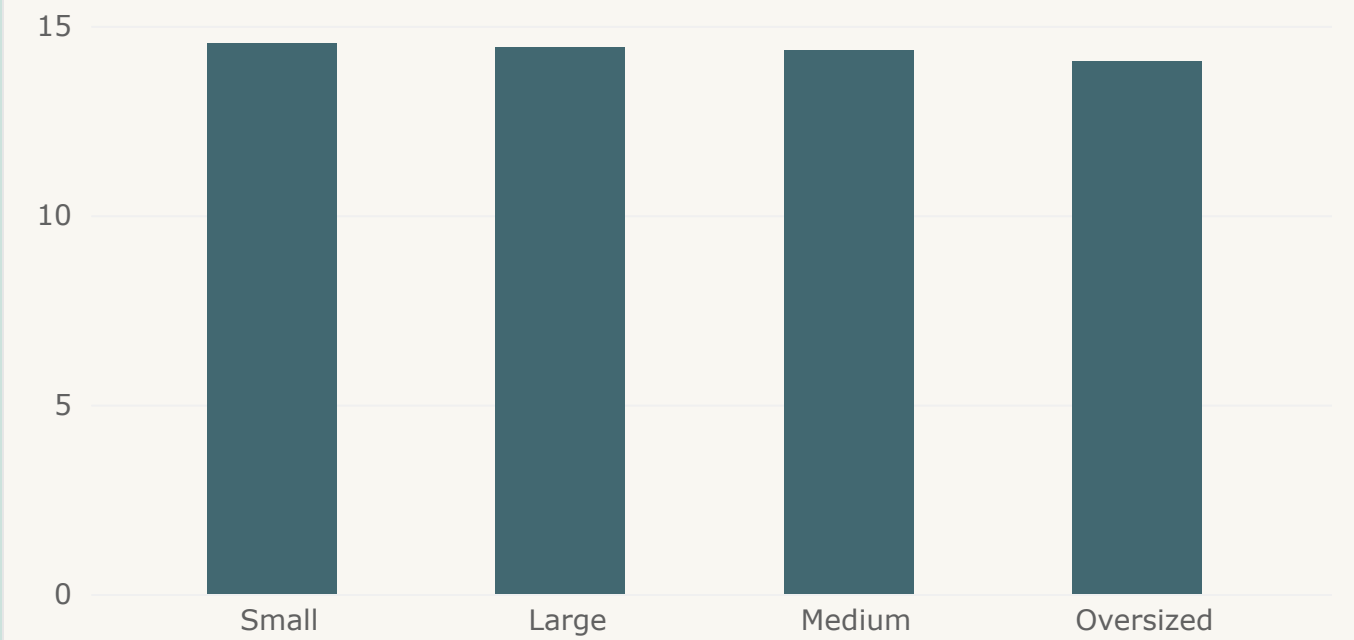

Processing delay is not the driver — GlobalExpress's poor on-time rate and flat freight-to-value are established on Pages 1 and 2; warehouse handling is ruled out here.
